QUESTION 1

Which two methods are used to join nodes in a WorldWor process? (Choose two.)

- A. Use a markup tool to join the nodes.
- B. Drag and drop one node on top of another
- C. Use a negative connector to join the nodes.
- D. Use a positive connector to join the nodes.
- E. Select one node, and then the other and choose "join."

Correct Answer: CD

QUESTION 2

The client wants all staff to have the Key Performance Indicator (KPI) Graph and Quick Insert Portlets to the left and side of the screen, and the Favorites and Result Set Portlets to the right of the screen on the Start Center. Which statement describes how this can be done?

- A. Open the Security Group application and select each Security Group to enable the Portlets assigning to the left or right hand side of the screen.
- B. Open the Application Designer, and then select the Start Center application. From the Control Palette, select the Portlets as needed, placing them to the left or right hand side of the application. Save.
- C. Create or edit the start center template, drag, and drop from the list of Portlets to the left and right column table windows to match the client's requirement. Save. Return to the Start Center and configure each Portlet. Save the template. Apply the template to the appropriate security Groups.
- D. Create or edit the start center template and in the left column table window, add the KPI Graph and Quick Insert Portlets, repeat for the right column table window, selecting the Favorites and Result Set Portlet. Save. Return to the Start Center and configure each Portlet. Save the template. Apply the template to the appropriate Security Groups.

Correct Answer: D

QUESTION 3

Which statement refers to the concept of IBM Maximo Asset Management (MAM)?
