QUESTION 1

Which three characteristics of services indicate a mature SOA environment?

- A. Services are discoverable.
- B. Services use Web 2.0 technology.
- C. Services are exposed by an Enterprise Service Bus (ESB).
- D. Services are composed into broader business functionality.
- E. Services contain logic to provide compatibility across technologies.
- F. Services use scripting languages to improve system responsiveness.

Correct Answer: ACD

QUESTION 2

A company has implemented a number of business processes using SOA services.

How do they determine if their new processes are helping the organization to achieve its business objectives?

- A. They establish a Center of Excellence (CoE) to monitor and report on the SOA services performance.
- B. They contact a third party to analyze and evaluate the new processes against the business objectives.
- C. They set and monitor Key Performance Indicators (KPIs) to track performance against the business objectives.
- D. They model the new processes in a business model simulator to identify bottlenecks and potential performance issues.

Correct Answer: C

QUESTION 3

What describes the role of the Enterprise Service Bus (ESB)?

- A. An adapter that exposes back end functionality of legacy systems
- B. A routing and mediation component that loosely couples service interfaces
- C. A routing and mediation component that loosely couples service implementations
- D. A component where transformation and aggregation are used to implement service interfaces

Correct Answer: C

QUESTION 4

What is a role of an Enterprise Service Bus (ESB) in SOA management?

- A. To provide the governance of services by limiting who can access services
- B. To provide point-to-point connection of service consumers and service providers
- C. To provide flexibility that allows business process inefficiencies to be rapidly corrected
- D. To ensure a seamless flow of information from anywhere at any time using a variety of protocols

Correct Answer: C

QUESTION 5

When starting to adopt SOA, which action should be taken early to help drive acceptance and success?

- A. Establish the SOA strategy and project roadmap.
- B. Identify the first services required and ensure they are designed well, considering security and scalability.
- C. Roll the SOA project in as the next phase of a project under development to prove the value to the business.
- D. Prepare the infrastructure for SOA by establishing a development environment, testing environment and the control process to promote services.

Correct Answer: A
