QUESTION 1

Which of the following statements best summarizes what happens when executing an advanced search that filters on the Policy Owner field using the "Current User" filter?

- A. The search results will contain only records that include the text "Current User"
- B. The search results will contain only record that include the text "Policy Owner" in the Description field
- C. The search results will be sorted based on the values included in the Policy Owner field
- D. The search results will contain only the records where the user who is logged in and runs the search is listed in the Policy Owner field

Correct Answer: B

QUESTION 2

What determines the content of an email delivered through an Instant Subscription Notification?

- A. All fields in the records are included in all Notifications
- B. Only fields that have the Search results checkbox selected can be included in the notification email
- C. The end user has complete editing rights over the fields that will appear, so it is up to each user to define the included content
- D. The fields specified in the Notification Template will appear, assuming the recipient has access to all included fields

Correct Answer: C

QUESTION 3

Which of the following Layout Objects might you use to create white space searching in a record?

- A. Placeholder
- B. Section
- C. Custom Object
- D. Tab Set

Correct Answer: B

QUESTION 4

Historically, each area of a typical organization would manage its own risks. How does RSA Archer's Operational Risk Management solution area differ in approach?

- A. RSA Archer's ORM solution offers control of the complete risk life cycle, enabling improved governance of risk management activities while also providing visibility to management
- B. RSA Archer's ORM solution will send email notifications to all other areas of the business when a risk is realized anywhere in the organization, thus promoting visibility and encouraging a quick reaction
- C. RSA Archer's ORM solution reduces the risk of IT and business disruption through specialized dashboards and reports
- D. RSA Archer's ORM solution enforces a siloed approach, as this will give more power to each area of the business to make decisions

Correct Answer: A

QUESTION 5

Which of the following is the best option to use if you want a date field to be dynamically populated by the system based on selections made in another field, but still, want to allow the End User to change the value selected in the date field?

- A. Date Fields cannot be dynamically populated
- B. Make the date field a calculated field
- C. Use a Data-Driven Event to populate the date field
- D. Pre-set the date field with the desired date in Manage Applications

Correct Answer: C
