QUESTION 1

You just installed a new application on your OES NetWare server. You installed it in the KNOWLEDGE directory on the APPS volume. You want to create a search drive so you don't have to remember the full path to the application. Which command will do this?

- A. SEARCH APPS:\KNOWLEDGE
- B. SEARCH ADD APPS:\KNOWLEDGE
- C. ADD SEARCH APPS:\KNOWLEDGE
- D. ADD APPS:\KNOWLEDGE SEARCH
- E. SEARCH APPS:\KNOWLEDGE -ADD

Correct Answer: B

QUESTION 2

You're designing your organization's eDirectory tree. You have decided to name your tree ACME_CORP-TREE. You've created a Country object below the tree root and named it US. Within C=US, you've created four Organization objects for each of your organization's functional divisions. To ease administration, you've decided to place your Admin user object directly below the tree root. Will this design work?

- A. Yes, all eDirectory rules have been observed.
- B. No, you can't use an underscore in the tree name.
- C. No, User objects can't reside directly below the tree root .
- D. No, Country objects can't reside directly below the tree root.
- E. No, Country objects must use the full name of the country they represent, not its abbreviation.
- F. No, if you use Country objects, the next level down the tree must represent geographic locations, not organizational divisions.

Correct Answer: C

QUESTION 3

Every directory and file in the OES NetWare server file system has a(n) _____ that specifies the eDirectory objects that are trustees of the file or directory and what rights they have to it.

Correct Answer: Control List

QUESTION 4

While installing OES NetWare, you decide to use a customized Server ID instead of the default value that was automatically generated by the installation program. Which is a valid Server ID that you could use?

- A. DABEFE01
- B. BAD0197J
- C. 0001FFFM
- D. 102788903
- E. CAFEFEEDA

Correct Answer: A

QUESTION 5

You are planning the network file system for your OES NetWare server. You want to create two NSS volumes on your server:

SYS for operating system files

DATA for user files Your server has two 100 GB SCSI hard disk drives. You want the SYS volume to be 8 GB in size and DATA to be about 190 GB in size.

Will this design work?

- A. Yes, all NSS requirements have been met.
- B. No, NSS doesn't support SCSI hard disk drives.
- C. No, the SYS volume must be at least 10 GB in size.
- D. No, you can't create multiple volumes on the same server.
- E. No, you can't span an NSS volume across multiple hard disk drives.

Correct Answer: A
