QUESTION 1

You\'re moving the ksanders user object from the SLC. DA container to the TYO.DA container in your eDirectory tree. You\'re concerned that ksanders may forget that her object has been moved and will try to log in to the tree using her old user context. What type of object can you create in the SLC. DA container that will allow her to continue logging in as ksanders.SLC. DA even though her user object now resides in TYO.DA?

A. Alias

B. Group

C. Profile

D. Template

E. Organizational Role

Correct Answer: A

QUESTION 2

What does the eDirectory schema use to define the types of objects that are allowed to exist within a container object?
