QUESTION 1

If an Archer user needs to send the content of an Archer record to a person who does not have an Archer user account, which of the following options is their best course of action?

- A. Share the Archer user's login information with the non-Archer user through encrypted Email.
- B. Use the Email icon to send the non-Archer user an email that contains the content of the record.
- C. Send the non-Archer user the URL shown in the browser address bar when the Archer user has the report open.
- D. Export the record to an output file (such as .rtf) and then attach that file to an email to send to the non-Archer user.

Correct Answer: D

QUESTION 2

Which of the following reporting options makes it possible to send a PDF of a saved report out to a selected audience on a weekly basis?

- A. Data Publication Service
- B. Subscription Notification
- C. Scheduled Report Distribution
- D. On-Demand Notification Template

Correct Answer: C

QUESTION 3

Which of the following statements does NOT apply to RSA Archer groups?

- A. Multiple groups can be assigned to an access role.
- B. A group is a collection of users and/or other groups.
- C. Automatic creation and maintenance of groups can be done through LDAP synchronization.
- D. Nesting of groups is limited to a single parent/child structure (i.e. a parent group cannot be the child of another parent group)

Correct Answer: D

QUESTION 4

Which of the following options is NOT available when performing a Data Import?

- A. The user can specify the locale to be used for date fields.
- B. The user can choose to ignore any invalid cross-references.
- C. The user can specify the type of encoding used in the external file.
- D. The user can filter out some of the data in order to import a subset of the data contained in the external file.

Correct Answer: D

QUESTION 5
