QUESTION 1

Which of the possible Simplified Routing modes should be used when installing the SteelHead on an 802.1Q trunk? (Choose three.)

A. All

B. None

C. Destination and Source

D. Destination Only

Correct Answer: ACD

In All mode the SteelHead collects mappings for destination and source IP, destination and source MAC, VLAN tag, and Steelhead appliance inner connection traffic and auto- discovery options. This option has the advantage of learning simplified entries faster than the destination only. option Riverbed recommends that you use in topologies when you deploy the Steelhead appliance a 802.1q trunk.

In Destination and source mode the SteelHead collects mappings from destination and source IP, destination and source MAC, and VLAN tag (when deployed on 802.1q trunk).

In Destination only mode the SteelHead collects mappings from destination IP, destination MAC, and VLAN tag (when deployed on 802.1q trunk).

QUESTION 2

What are the default port labels on the Steelhead appliance? (Select 3)

A. Secure

B. Interactive

C. RBT-Proto

D. Fixed-Target

E. Pass-Through

Correct Answer: ABC

QUESTION 3

Which trunking protocols are supported by the Steelhead appliance?

A. 802.1Q

B. 802.1P

C. 802.1AD

D. Dynamic Etherchannel

Correct Answer: A

QUESTION 4

What files can be gathered from the SteelHead which would be useful for troubleshooting problems with QoS configuration? (Choose two.)

A. TCP Dump

B. System Dump

C. Core Dump

D. Process Dump

Correct Answer: AB

TCP Dump can be used to analyze QoS protocol traffic. The System Dump Analyzer helps you investigate system dumps to identify potential problems with your Steelhead appliances and Riverbed configuration. Simply upload a system dump and view the results.

QUESTION 5

When upgrading a Steelhead appliance from the Management Console, the new image is always installed on the:

A. Booted partition

B. Backup partition

C. Both the boot and backup partitions

D. The image is only installed into a partition after a reboot (from a temporary location)

E. Upgrades can only be done from the CLI

Correct Answer: B
