QUESTION 1

DRAG DROP

Place the following items in the order that the BIG-IP device uses when processing a packet.

Select and Place:

Look for a match for a packet filter rule	
Check if the destination matches a NAT	
Look for a virtual server address match	
Examine the source IP address for a standalone SNAT match	
Check for a match with a Self IP address	
Search for an existing connection	

Correct Answer:

	Check for a match with a Self IP address
	Search for an existing connection
	Examine the source IP address for a standalone SNAT match
	Check if the destination matches a NAT
	Look for a virtual server address match
	Look for a match for a packet filter rule

- 1) Check for a match with a self-IP
- 2) Search for an existing connection
- 3) Examine source IP for a standalone SNAT
- 4) Check if the destination matches a NAT
- 5) Look for a virtual server address match
- 6) Look for a match in a packet filter rule

QUESTION 2
