Following Questions and Answers are all new published by CheckPoint Official Exam Center

QUESTION 1

You are a system administrator managing a pool of database servers. Your software vendor releases a service pack, with many new features. What should you do? (Choose TWO.)

A. Eliminate the testing phase of change control.

B. Read the release notes.

C. Refuse to install the service pack.

D. Install the service pack on all production database servers.

E. Install the service pack on a database server, in a test environment.

Correct Answer: BE

QUESTION 2

What must system administrators do when they cannot access a complete replica of their production environment for testing?

A. Extrapolate results from a limited subset.

B. Eliminate the testing phase of change control.

C. Request additional hardware and software.

D. Refuse to implement change requests.

E. Deploy directly to the production environment.

Correct Answer: A

QUESTION 3

_____ educate(s) security administrators and end users about organizations\\' security policies.

A. Security-awareness training

B. Information Security (INFOSEC) briefings

C. Acceptable-use policies

D. Continuing education

E. Nondisclosure agreements

Correct Answer: A

QUESTION 4

Which of the following is an integrity requirement for Remote Offices/Branch Offices (ROBOs)?

A. Private data must remain internal to an organization.

B. Data must be consistent between ROBO sites and headquarters.

C. Users must be educated about appropriate security policies.

D. Improvised solutions must provide the level of protection required.

E. Data must remain available to all remote offices.

Correct Answer: B

QUESTION 5

Distinguish between the role of the data owner and the role of the data custodian. Complete the following sentence. The data owner is the:

A. department in the organization responsible for the data\\'s physical storage location. The data custodian is anyone who has access the data for any reason.

B. person or entity who accesses/and or manipulates data or information, in the course of assigned duties. The data custodian is a person or process with the appropriate level of privilege to access the data.

C. person or entity ultimately responsible for the security of an information asset. The data custodian is the person or entity responsible for imposing and enforcing policies and restrictions, dictated by the data owner.

D. person or process that originally creates the information. The data custodian is a role that shifts to any person or process currently accessing the data, and passes to the next person or process to access the data.

E. person or entity responsible for imposing and enforcing policies and restrictions, dictated by the functional user. The data custodian is a person or process who accesses and/or manipulates the information.

Correct Answer: C
