QUESTION 1

Your company has two headquarters, one in London, one in New York. Each of the headquarters includes several branch offices. The branch offices only need to communicate with the headquarters in their country, not with each other, and the headquarters need to communicate directly. What is the BEST configuration for establishing VPN Communities among the branch offices and their headquarters, and between the two headquarters? VPN Communities comprised of:

A. Three star Communities: The first one is between New York headquarters and its branches. The second star Community is between London headquarters and its branches. The third star Community is between New York and London headquarters but it is irrelevant which site is "center" and which "satellite".

B. One star Community with the option to mesh the center of the star: New York and London Gateways added to the center of the star with the "mesh center Gateways" option checked; all London branch offices defined in one satellite window; but, all New York branch offices defined in another satellite window.

C. Two mesh and one star Community: Each mesh Community is set up for each site between headquarters their branches. The star Community has New York as the center and London as its satellite.

D. Three mesh Communities: one for London headquarters and its branches; one for New York headquarters and its branches; and one for London and New York headquarters.

Correct Answer: A

QUESTION 2

Installing a policy usually has no impact on currently existing connections. Which statement is TRUE?

A. All connections are reset, so a policy install is recommended during announced downtime only.

B. Users being authenticated by Client Authentication have to re-authenticate.

C. Site-to-Site VPNs need to re-authenticate, so Phase 1 is passed again after installing the Security Policy.

D. All FTP downloads are reset; users have to start their downloads again.

Correct Answer: B

QUESTION 3

What is the syntax for uninstalling a package using newpkg?

A. -u

B. newpkg CANNOT be used to uninstall a package

C. -i

D. -S

Correct Answer: B

QUESTION 4

You have configured SNX on the Security Gateway. The client connects to the Security Gateway and the user enters the authentication credentials. What must happen after authentication that allows the client to connect to the Security Gateway\\'s VPN domain?

A. Active-X must be allowed on the client.

B. The SNX client application must be installed on the client.

C. SNX modifies the routing table to forward VPN traffic to the Security Gateway.

D. An office mode address must be obtained by the client.

Correct Answer: C

QUESTION 5

Your main internal network 10.10.10.0/24 allows all traffic to the Internet using Hide NAT. You also have a small network 10.10.20.0/24 behind the internal router. You want to configure the kernel to translate the source address only when network 10.10.20.0 tries to access the Internet for HTTP, SMTP, and FTP services. Which of the following configurations will allow this network to access the Internet?

A. Configure Automatic Static NAT on network 10.10.20.0/24.

B. Configure Automatic Hide NAT on network 10.10.20.0/24 and then edit the Service column in the NAT Rule Base on the automatic rule.

C. Configure one Manual Hide NAT rule for HTTP, FTP, and SMTP services for network 10.10.20.0/24.

D. Configure three Manual Static NAT rules for network 10.10.20.0/24, one for each service.

Correct Answer: C
