QUESTION 1

Which of the following is the common name for the practice hackers use to trick people into revealing sensitive information?

- A. Social engineering
- B. Identity exploitation
- C. Information probing
- D. Intellectual deception

Correct Answer: A

QUESTION 2

You are creating a Web site that uses a gradient fill for all page backgrounds on a site. To ensure that you can see the gradient through the image background, you should:

- A. use TIF images with transparent backgrounds.
- B. use JPG images with transparent backgrounds.
- C. use GIF 89a images with transparent backgrounds.
- D. use GIF 89b images with transparent backgrounds.

Correct Answer: C

QUESTION 3

You are a member of a Web development team exploring design issues. Which of the following items should you consider first when designing a new site?

- A. Site map
- B. Navigational elements
- C. Information organization
- D. Page layout and structure

Correct Answer: C

QUESTION 4

Some of your site's users have called to complain that they do not understand the policy for shipping charges. Initially, the Web team created a pop-up window that appears at the point of purchase, designed to explain the shipping charge

policy. Why did some of these users fail to get this message?

- A. Because antivirus software blocked the pop-ups
- B. Because newer browsers have automatic pop-up blockers
- C. Because firewalls blocked the client-side scripts that create pop-ups
- D. Because firewalls blocked the server-side scripts that create pop-ups

Correct Answer: B

QUESTION 5

The role of the project manager is to:

- A. develop Web sites and manage Web site resources.
- B. create the blueprint for the site and plan the navigation.
- C. evaluate available resources and create specifications.
- D. create Flash animations and user interfaces for Web applications.

Correct Answer: C
