### QUESTION 1

David has designed a home page for an e-commerce Web site. At the left side of the page is a large block of text with product names and prices. The right side features a detailed 100-pixel-by-200-pixel photo of a sample product. David decides that his page appears to be balanced. How did the two elements balance each other?

- A. By size
- B. By color
- C. By value
- D. By shape

Correct Answer: D

---

### QUESTION 2

Jay is about to integrate animation into his Web site. He has decided that using shape tweening is the most dynamic technique with which to begin. In using this technique, what must he remember to do?

- A. Be careful to use no symbols for objects.
- B. Use interesting symbols for all of the objects.
- C. Include more than one tween on the top layer.
- D. Use a circular pattern, moving objects between locations.

Correct Answer: A

---

### QUESTION 3

Jacob runs a Web site specializing in selling music from independent artists. Most of the site's customers want to know about unknown or new artists in the music industry whose work is available on Jacob's site. Site visitors have requested an easier way to learn about updates to the New Artists page. Which of the following will best meet visitors' needs?

- A. Update the New Artists page more often.
- B. Install an RSS feed for the New Artists page.
- C. Install a search feature on the New Artists page.
- D. Use a different font for each new entry on the New Artists page.

Correct Answer: B

---

### QUESTION 4

How many fonts are commonly used in Web page design?

- A. Two
- B. Four
- C. Six
- D. Eight

Correct Answer: A

---

#### QUESTION 5

Suandi is documenting the technology choices of his Web development team. In the document, he explains his reasons for using JavaScript as a development language on the client side because:

- A. it is best suited for open-source browsers.
- B. it is compatible with the widest variety of Web browsers.
- C. it is the scripting version of the popular Java programming language.
- D. it was specifically developed for use with the Internet Explorer Web browser.

Correct Answer: B
