QUESTION 1

Brent wants to use the same image on each page of his site, but wants to have a different color in a part of that image from one page to the next. Using an image software editor, he decides to create a master layered image with the changes on their own layer. Which file format would allow Brent to accomplish this task?

- A. GIF
- B. JPG
- C. PNG
- D. BMP

Correct Answer: C

QUESTION 2

It is often suggested that a Web design team hire a professional editor. What advantage does the contribution of the editor bring to the site design process?

- A. The editor brings cultural perspectives to the process.
- B. The editor sets the tone, making style guides unnecessary.
- C. The editor is responsible for the accuracy of the information.
- D. The editor ensures that the site is consistent in tone and content.

Correct Answer: D

QUESTION 3

Denny is designing a Web site for his school's sporting events. This Web site will list event results for the school. When site visitors click a hyperlink for a specific event, a new page containing information about the sporting event will appear, including the teams involved, the location of the event, scores, key plays and specific accomplishments by contestants. Which of the following should Denny do to build this site?

- A. Use database integration.
- B. Create static pages for each event.
- C. Use one page and modify it after each event.
- D. Copy and paste Web pages from other schools' sites.

Correct Answer: A

QUESTION 4

Which of the following is an acceptable way to insert a background image using a style sheet?

- A.
- B. background-image: url(background.tiff);
- C. background-image: url(background.jpg);
- D. background-position: background.jpg bottom right;

Correct Answer: C

QUESTION 5

Consuela is updating her company's Web site. She wants to add an image that is 1,414 pixels by 724 pixels. Her site audience generally uses a monitor resolution of 1024x768. Using Fireworks, how can she adjust the image to fit the users' monitors?

- A. Resample the image to adjust the print size.
- B. Resample the image to increase the resolution.
- C. Resample the image to decrease the color depth.
- D. Resample the image to decrease the pixel dimensions.

Correct Answer: D
