QUESTION 1

Michelle wants to search for a scuba regulator. She plans to use a keyword search engine. She does not want to see any results from the manufacturer named Scubapro.

Which of the following search strings should she use?

- A. Regulators !Scubapro
- B. Regulators Scubapro
- C. regulators Scubapro

Correct Answer: A

QUESTION 2

Which of the following is a legal and ethical practice?

- A. Copying someone else's written work found on the Internet and presenting it as you own, as long as it is for schoolwork.
- B. Trying shareware for free and paying for it only after you decide to keep using it.
- C. Downloading copyrighted artwork and using it as background on your Web site.
- D. Downloading music and motion pictures as long as they are from a peer-to-peer network.

Correct Answer: B

QUESTION 3

Evonka is listening to music from an online music provider (such as Pandora or Jango). She builds a list of music preferences, including favorite songs. The music service then suggests additional songs she might enjoy. The music provider is an example of a cloud-computing application that uses a technology for collaborative filtering, which helps define the list of songs available to listeners.

Which term describes this technology?

- A. Bit-torrent
- B. Crowdsourcing
- C. Grid computing
- D. Software as a Service

Correct Answer: B

**QUESTION 4**

Emelia and Lola have created a new software application that allows messaging site subscribers to analyze the message statistics in order to more easily assess and interact with followers. They have decided to license this software according to the GNU GPL Version 3.

What does this license allow them to do with their software?

- A. They can only sell this software through a not-for-profit company.
- B. They can sell this software, but only if they make the software code available on a public server.
- C. The software enters the public domain for free use and can be altered by other programmers, who must then make their changes freely available as well.

Correct Answer: C

QUESTION 5

Roberto's company is releasing updates to a specific product. He needs to educate the company's sales managers, who are located in various international locations, about the new product updates.

Which of the following methods would be the most economical and efficient solution for Roberto to discuss the required information with the sales managers synchronously?

- A. Send the product update blueprints via e-mail to each of the sales managers and ask them to contact him any questions.
- B. Schedule an in-person sales meeting with them at the company headquarters so that the updates can be demonstrated and any questions answered with the entire group present.
- C. Schedule a Webinar with the sales managers so that the updates can be demonstrated and any questions answered with the entire group.

Correct Answer: C
