QUESTION 1

John is the network administrator for a small company. The company's network equipment has become outdated, and John has been asked to recommend a plan to update the company's infrastructure. John has read extensively about the many advantages of using cloud-based services. Which of the following is an advantage of cloud-based services that John could cite to support his recommendation?

- A. Unlimited service options and choices
- B. Higher security in a cloud-based environment
- C. Elimination of need for high-speed Internet connection
- D. Elimination of equipment purchase and maintenance

Correct Answer: D

QUESTION 2

Disaster recovery planning is considered a best practice for all organizations. It is even more important when cloud-computing services are used. Which of the following should be included as part of a disaster recovery plan for companies that use cloud-based services?

- A. Company organizational chart
- B. Malware and anti-virus software updates
- C. Service-level agreement with a cloud-provider
- D. Inventory of services not dependent on the cloud provider

Correct Answer: C

QUESTION 3

What is the biggest security concern with wireless networks?

- A. Firewall software is not available for access points.
- B. Wireless encryption algorithms must be implemented.
- C. Wireless networks do not support intrusion detection.
- D. Wireless networks do not support encryption via an access point.

Correct Answer: B

QUESTION 4

On your Windows laptop, you store all your vacation photos and your entire digital music library. Concerned about data loss, you perform frequent backups. Your laptop has recently been stolen and you need to restore your files to a desktop computer. Which Windows tool would you use to recover and set up the saved copies of your files onto your desktop computer?

- A. Backup and Restore
- B. Backup Recovery
- C. System Recovery
- D. System Restore

Correct Answer: A

QUESTION 5

What should be your first step when troubleshooting a network connection that uses a cable modem?

- A. Ping the proxy server.
- B. Ping the default gateway.
- C. Ping local devices using their DNS names.
- D. Ping local devices using their IP addresses.

Correct Answer: D
