QUESTION 1

Lisa is traveling on company business. She has a company-issued smartphone with 4G access. Her hotel does not provide Internet access. What advantage does 4G provide to help her access the Internet?

- A. She can use a 4G mobile hotspot device with her phone to connect her laptop to Wi-Fi.
- B. She can use the 4G phone to establish a VPN connection into the company network.
- C. She can use the 4G phone to call and locate a public location that provides free Wi-Fi.
- D. She can use her 4G phone's GPS to identify another hotel that provides in-room Internet access.

Correct Answer: A

QUESTION 2

ABC Company develops its own database applications. ABC is considering migrating to cloud services to accommodate the company's growth. What strategy should ABC use to ensure continuous data protection if it begins using cloud services?

- A. Cloud-only solution
- B. Regional systems solution
- C. Location systems solution
- D. Multiple cloud-service providers

Correct Answer: C

QUESTION 3

Gwen works for a small company where she has been asked to find a cost-effective option for providing comprehensive customer service. The finance, technical support, sales and customer service departments all need to share information about their customers. Gwen is considering adoption of a customer relationship management (CRM) application. Which of the following would be the most cost-effective solution?

- A. She can purchase a new server, then create and maintain the CRM in-house.
- B. She can outsource all customer service so the company can focus on product development.
- C. She can contract with a cloud service provider to host the CRM that her company's employees can access.
- D. She can hire a programmer to develop and maintain the CRM specific to her company's needs, then have a service provider host the application.

Correct Answer: C

QUESTION 4

Disaster recovery planning is considered a best practice for all organizations. It is even more important when cloud-computing services are used. Which of the following should be included as part of a disaster recovery plan for companies that use cloud-based services?

- A. Company organizational chart
- B. Malware and anti-virus software updates
- C. Service-level agreement with a cloud-provider
- D. Inventory of services not dependent on the cloud provider

Correct Answer: C

QUESTION 5
