### QUESTION 1

Luke's web design team has decided to implement the agile Web design process. He has been assigned to write some JavaScript code that will assist in form field validation.

What phase of the agile Web design process is he currently in?

- A. The test phase
- B. The delivery phase
- C. The develop phase
- D. The design phase

Correct Answer: C

---

### QUESTION 2

A large hardware retailer has a very large website, with many pages of do-it-yourself (DIY) tutorials, and product information. However, some customers are visiting the site to find the closest physical store. The development team has elected to place a link for the Store Locator in the top right corner of the home page, but it will not appear on tutorial or ecommerce pages. What kind of navigational element is this?

- A. Breadcrumb
- B. Utility
- C. Secondary
- D. Primary

Correct Answer: B

---

### QUESTION 3

You are including both a site map and a navigation bar on your website. What is the rationale for doing this?

- A. Navigation bars display well on large monitors, but site maps work better on mobile phones.
- B. Visitors need special training to use a site map.
- C. Different users prefer different types of navigation.
- D. It provides a clear sense of the layout of the entire website.

Correct Answer: C

---

#### QUESTION 4

A web site designer is using percentage based dimensions to allow a web site to shrink or enlarge according to the browser and device screen size.

- A. Responsive grid design
- B. Fixed grid design
- C. Fluid grid design
- D. Symmetrical grid design

Correct Answer: A

---

#### QUESTION 5

Why website navigation that is easy to understand so important?

- A. It ensures that site visitors can find what they are looking for quickly and easily.
- B. It ensures visitors will be directed to exactly the information you want them to see.
- C. It guarantees that visitors will purchase products/
- D. Because search engines will not be able to index pages within a site, if the navigation is difficult to use.

Correct Answer: A
