### QUESTION 1

you are consulting on the web site design for a young lawyer who is starting a new legal practice in environmental law. She wants the site to feature hot pink and bright green colors, to represent her youthful new approach to solving legal problems. You advise her to consider a neutral color scheme based on gray and blue instead. Which of the following best supports your recommendation?

- A. Her preferred color scheme is offensive to you as the web site designer.
- B. Her preferred color scheme is difficult to read, which will prevent users from exploring the website.
- C. Her potential clients will respond better to the authoritative professional tone of the neutral colors.
- D. Her potential client's computer devices will not be able to display pink and green very well, which will cause them to exit the site.

Correct Answer: C

---

### QUESTION 2

A web site designer is using percentage based dimensions to allow a web site to shrink or enlarge according to the browser and device screen size.

- A. Responsive grid design
- B. Fixed grid design
- C. Fluid grid design
- D. Symmetrical grid design

Correct Answer: A

---

### QUESTION 3

Which of the following is a recommended method in the W3C standards in the operability category to improve accessibility of a web site on a tablet computer?

- A. Provide a virtual magnifying glass that enlarges portions of a website.
- B. Placing critical information at the top of the page.
- C. Provide adequate contrast to make onscreen content visible in bright environments.
- D. Provide workarounds for actions triggered by physically moving the tablet.

Correct Answer: B

---

#### QUESTION 4

How can you optimize your Web site for accessibility by visually challenged persons on any device (computers, laptops, tablets, mobile phones)?

- A. Incorporate white space and strong contrast between text and background.
- B. Place navigation buttons at the top and bottom of web pages.
- C. Make buttons of adequate size and have a small amount of inactive space between targets.
- D. Support external physical keyboards or alternative on-screen keyboards.

Correct Answer: A

---

#### QUESTION 5

You are starting a web site redesign project for a dog trainer who specializes in preparing service animals for people with special needs. His primary customers have mobility challenges.

What would be a primary consideration in the redesign of the site?

- A. Providing large print PDF files for download
- B. Providing image and video alternatives to text
- C. Minimizing the number of mouse clicks needed to perform tasks
- D. Removing page elements that flicker and change color

Correct Answer: C
