### QUESTION 3

What information does a Citrix Administrator need when creating a silent installation of the Cloud Connector?

- A. Citrix.CloudServices.AgentHub.Api
- B. Machine Catalog Name
- C. Resource Location ID
- D. Active Directory Schema

Correct Answer: C

In order to silently install Citrix Cloud connectors when you have more than one resource location, the ID of the target resource location must be passed on the command-line of the installer.
