QUESTION 1

Scenario: A Citrix Engineer is planning to set up a XenApp and XenDesktop environment. The requirements for network security are as follows:

1.

 Both external and internal HDX connection traffic must be secured with end-to-end encryption.

2.

 Attackers must be prevented from intercepting a user session and viewing sensitive data.

Which two implementations should the engineer include in the environment design to accomplish the requirements? (Choose two.)

A. Workspace Environment Manager

B. TLS enabled on Virtual Delivery Agents (VDAs)

C. HDX Monitor

D. Citrix Gateway HDX Proxy

E. Citrix SD-WAN

Correct Answer: BD

QUESTION 2

Which Citrix technology can a Citrix Engineer use to optimize the CPU or bandwidth consumption of HDX sessions?

A. App Layering

B. Insight Services

C. Provisioning Services

D. Workspace Environment Management

Correct Answer: C

Provisioning services for HDX sessions allow you to optimize CPU or bandwidth consumption by increasing and decreasing the values.

QUESTION 3

What is the primary Agent Host process that communicates with the Infrastructure Services server and is responsible for enforcing the session settings?

A. Norskale Agent Host Service.exe

B. Norskale Broker Service.exe

C. AgentCacheUtility.exe

D. Norskale Broker Service Configuration Utility.exe

Correct Answer: A

QUESTION 4

Which HDX multimedia policy enables video formats that are NOT compatible with iOS files to be played on iOS clients?

A. Windows Media redirection

B. Optimization for Windows Media multimedia redirection over WAN

C. Windows Media client-side content fetching

D. Server-side redirection

Correct Answer: A

QUESTION 5

Users accessing a XenApp hosted desktop by means of thin client devices can see a new network printer

that has been provisioned by the administrator using the session printers policy but are unable to print to

this printer.

What can the administrator do to resolve this?

A. Enable the auto-create all client printers policy.

B. Add the new printer to the session printers policy.

C. Verify that the new printer has been added to the default printer policy.

D. Install the correct printer driver on the XenApp servers and the print server.

Correct Answer: D
