QUESTION 1

Which XenMobile option is available for Windows 8.1 Enterprise tablet devices?

A. XenMobile MDM policy

B. XenMobile Worx Apps

C. Remote support

D. Kiosk mode

Correct Answer: A

QUESTION 2

Which two XenMobile policies could a Citrix Engineer use to block the camera on an iOS device? (Choose two.)

A. MDM Restriction policy

B. MDX policy

C. App Lock policy

D. App Configuration policy

Correct Answer: AB

QUESTION 3

A Citrix Engineer deployed XenMobile Mail Manager in a Proof of Concept (POC) environment; however, the connection test fails.

What are two possible causes for this connection test failure? (Choose two.)

A. There are no ActiveSync devices in the environment.

B. The service account used lacks the correct permissions.

C. The limit on maximum number of supported ActiveSync devices has been reached.

D. The environment has unsupported ActiveSync devices.

Correct Answer: AB

QUESTION 4

A Citrix Engineer has configured WorxMail for iOS to use PUSH notifications but does NOT see mail refreshing at the proper interval.

Which two steps should the engineer take in order to ensure the desired PUSH experience? (Choose two.)

A. Allow outbound Apple Push Notification service (APNs) traffic from the XenMobile Server.

B. Create an Apple Push Notification service (APNs) provisioning profile with a wildcard (*) App ID.

C. Allow outbound SSL traffic (over port 443) from the firewall to the Citrix Listener services.

D. Define the unique Customer ID within the WorxMail MDX policy.

Correct Answer: CD

QUESTION 5

A Citrix Engineer is adding a second node to an existing standalone XenMobile deployment. Which three steps must the engineer take when deploying additional nodes? (Choose three.)

A. Enable the cluster option on the existing node.

B. Connect to the existing XenMobile Server database.

C. Use the internal PKI certificate password from the existing node.

D. Use the same device certificate as the existing node.

E. Use the same host name as the existing node.

Correct Answer: ABC
