discussions.

Category	Detail
Active Directory Permissions	The Active Directory (AD) team implements all AD-based policy changes based on approved change control tickets.
User Profile Type	A third-party profile management solution will be used.
Required Policies	Due to an organizational requirement, Block Inheritance must NOT be enabled on the OUs containing Virtual Delivery Agent (VDA) machines. Instead, mandated policy settings will be applied to the VDA machines at a higher level in the OU.
Security Considerations	The Virtual Delivery Agent machines should receive additional lockdown settings that are NOT currently being applied elsewhere in the environment.
Other Requirements	The Citrix Administrative team would like to have the ability to directly test and implement settings.
