QUESTION 1

Your users receive a notification for a transaction from CPQ when an approval has been retracted and is no longer needed. The notification contains a generic message about this action. However, users would like to get more details about the transaction. What is the Oracle-recommended best practice to fulfill this requirement in CPQ?

- A. Trigger an email action to notify users by custom defining the email's subject and body, which contain the transaction details, by using the advanced function available in the Revise action.
- B. When a transaction needs to be revised, allow the transaction owner to send a parallel email to approvers, which should include the necessary transaction details.
- C. Switch the system-generated email-to-email template, which will include the desired transaction information when approvers are notified.

Correct Answer: A

QUESTION 2

When using Web Services 1.0, consider the following sequence of a client system calling CPQ Cloud WebServices.

1.

Call Security Login WebServices with User ID and Password.

2.

Create a Commerce update Transaction WebServices call by using an existing transaction ID.

3.

Make the following updates in the web service XML:

Set Session ID.

Set "_shipTo_first_name" to "myName"

4.

Submit the WebService call.

5.

Call Security Logout WebServices with the Session ID to close the session.

Based on the given sequence, which two statements are true? (Choose two.)

- A. Step 5 is unnecessary. Session ID is not needed to log out.
- B. The call in step 4 will throw an error.
- C. Step 3 does not specify an action to execute; therefore, nothing is updated in the transaction.

- D. The session will still be open.
- E. The Commerce transaction should be updated with the new Ship To name.

Correct Answer: AE

QUESTION 3

What would you do if a partner organization is no longer needed and the access of all users needs to be removed?

- A. Proxy log in as superuser, go to the list of partner organizations, and select the partner organization and delete it.
- B. Go to the list of partner organizations, perform a proxy log in as the superuser of the partner organization, go to the list of users, select all active users, and click Inactivate.
- C. Proxy log in as superuser, go to the list of partner organizations, and select Denied in the Access drop-down list.
- D. Open the list of partner organizations and set the value of Maximum Users to "0".

Correct Answer: B

QUESTION 4

You want to create a Document Designer template that contains text in multiple columns. How do you add multiple columns to the template?

- A. Set the number of columns to be used in the Text Element Properties panel.
- B. Drag a Column Text Element to the appropriate section of the template.
- C. Set the number of columns to be used in the Section Properties panel.
- D. Select the appropriate options for the number of columns you want in the Text Element Properties panel.
- E. Click the Column Section icon in the floating Layout Item palette.

Correct Answer: C

QUESTION 5

A client wants customers to be able to select a laptop category from a drop-down list in the Product Configuration section. After the laptop category is selected, all laptops within that category need to be displayed without the user having to do any more selections.

Which option meets this requirement?

- A. Formula Administration
- B. Util library function

C. Commerce library function

D. Auto Update

Correct Answer: D
