#### QUESTION 5

As a Process Cloud developer, you have been tasked with integrating Oracle Content and Experience Cloud with a process application. Since this is a document-centric process that will involve collaboration with process participants, it has been determined that the document and conversation functionality should be used.

Which task is NOT required?

- A. You will need to create a new process application since conversation functionality cannot be enabled for pre-existing applications.
- B. You must manually enable the document and conversation features for your process application.
- C. You will need to have the administrator configure the connection between Oracle Process Cloud and Oracle Content and Experience Cloud since developers do not have those permissions.
- D. You will need to assign conversation viewers to either an Oracle Content and Experience user role or Oracle Documents Cloud Service user role.

Correct Answer: A
