QUESTION 5

What happens behind the flag Only deallocate on Short in the order type screen?

A. The Order Type has no impact on the Picking Process.

B. When the parameter is set to YES, during short pick, the system will put the order hold status until more inventory is available.

C. When the parameter is set to Yes, then only the shorted quantity will get deallocated form the order.

D. When the parameter is set to No, the shorted quantity on the order remains in the "allocated" status.

E. When the parameter is set to Yes, the short pick will cancel the shorted order line automatically and inventory adjustment will be generated for the item.

Correct Answer: E
