- E. Set the intercompany system option minimum transaction amount to \$2,999.99 USD.

Correct Answer: BC

Define intercompany system options to set up intercompany processing rules at the enterprise level, based on your specific business needs. Minimum Transaction Amount The minimum transaction amount represents a minimum threshold intercompany transaction amount, and prevents the submission of immaterial transactions for small amounts, which are non- value added. In order to implement this rule, you must select a minimum transaction currency for processing intercompany transactions. These two system options must be related to ensure that when comparing a transaction amount to the minimum transaction amount, the two numbers are entered in the same currency, allowing for an accurate comparison.
