QUESTION 4

Identify two activities that a Buying Organization will be able to perform after it provides the Supplier Portal access to Suppliers. (Choose two.)

- A. Create Negotiation flow internally on behalf of prospective suppliers.
- B. Import supplier data and related entities.
- C. Consolidate suppliers and supplier sites to clean up duplicate suppliers or support supplier acquisitions.
- D. Evaluate prospective suppliers by routing their registrations through a collaborative review process by using a flexible rules engine.
- E. Collect information about prospective suppliers through a self-guided registration flow.

Correct Answer: DE

E: The buying organization can collect information about the products and services categories supplied by the company on the registration flow by enabling Products and Services using the Configure Supplier Registration flow.

D: The Supplier Registration process is used by companies to submit their registration request in order to become a supplier of the buying organization. The buying organization then reviews the registration request using a collaborative review process and determines if it wants to consider this company as a new source of supply.
