QUESTION 1

Consider the following code snippet from the config.json file for a custom payment gateway extension's properties:

```
"properties": [  
  {  
    "id": "paymentMethodTypes",  
    "type": "multiSelectOptionType",  
    "name": "paymentMethodTypes",  
    "required": false,  
    "helpTextResourceId": "paymentMethodsHelpText",  
    "labelResourceId": "paymentMethodsLabel",  
    "defaultValue": "generic",  
    "displayAsCheckboxes": true,  
    "options": [  
      {  
        "id": "generic",  
        "value": "generic",  
        "labelResourceId": "genericLabel"  
      },  
    ],  
  },  
]
```

Which two statements describe the paymentMethodTypes property configuration? (Choose two.)

- A. The generic option will appear as a checkbox in the Administration UI
- B. The default value is set to generic, which means that option will be selected in the Administration UI
- C. Other paymentMethodTypes options defined in the gateway.json file will appear in the Administration UI, even though not explicitly defined in config.json
- D. The property is public by default and can be used in a custom widget

Correct Answer: CD

QUESTION 2

What does a slot component reserve space in a layout to display?

- A. a widget determined in real-time based on variable criteria
- B. an ordered set of widgets specified in a tabular format
- C. the header or footer of a page that contains configurable elements
- D. a group of related widgets that constitute a composite shopper-based function

Correct Answer: A

QUESTION 3

The following code snippet shows the customProperties subobject included in the payments object in the payments object in a sample JSON request payload:

```
"payments": [  
  {  
    ...  
    "customProperties" : {  
      "MonthlyCharge" : "$25",  
      "NumberOfPayments" : "12"  
    }  
    ...  
  }  
]
```

Which two statements describe how the custom properties were included in the request? (Choose two.)

- A. Custom properties can be added via a custom widget
- B. Custom properties are included in the gateway extension's JavaScript
- C. Custom properties are specified in the config.json file for the gateway extension
- D. Custom properties are specified in the createOrder REST request

Correct Answer: CD

QUESTION 4

You need to display a message to a logged in shopper about a relevant promotion, based on the number of products in the cart and the total value of the items. You develop a custom widget that uses the User, Cart and Site view models as displayed in this example Javascript:

```
function (ko) {  
    ...  
    widget.showCartMsg = ko.computed(function() {  
        return (widget.user().loggedIn() &&  
            widget.cart().numberOfItems() > 0 &&  
            widget.cart().subTotal() < minSpend);  
    });  
    widget.cartMsg = ko.computed(function() {  
        return widget.translate('cartMsg',  
            {currencySymbol: widget.site().currency.symbol,  
            cartTotal: widget.cart().subTotal(), minSpend: minSpend,  
            coupon: coupon});  
    });  
    ...  
}
```

Under what condition is the showCartMsg() function true?

- A. Only when there is at least one item in the cart and the cart subtotal is less than the value of minSpend
- B. When a user is logged in and there is at least one item in the cart and the cart subtotal is less than the value of minSpend
- C. If either a user is logged in or there is at least one item in the cart or the cart subtotal is less than the value of minSpend
- D. As long as the user is logged in; the status of the cart does not matter

Correct Answer: C

QUESTION 5

Your client company has created a seasonal site that shares layouts with the default site, but has a different design theme that they have created on the Design page.

What do they need to do in the Administration UI to associate the new theme the seasonal site?

- A. They cannot do this in the Administration UI. They must use the /ccadmin/v1/sites endpoint
- B. On the Design page, select the site and create a new theme under that site
- C. Edit the theme's JavaScript code to limit it to the seasonal site
- D. On the Settings page, navigate to the seasonal site and select the new theme in the Theme property

Correct Answer: B
