-  **800,000+** Satisfied Customers

QUESTION 1

The order manager in your company likes to monitor order delivery commitments in real time for customers.

Identify the Order Management Oracle Transactional Business Intelligence (OTBI) dashboard that can be used to get all possible root causes for orders that are not fulfilled on time.

- A. Fulfillment line in Jeopardy
- B. Orders on Backorder
- C. Orders on Past Due
- D. Orders in Jeopardy
- E. Orders on Hold

Correct Answer: C

Orders in jeopardy ?Details ?The Fulfillment Lines in Jeopardy Analysis shows the number of fulfillment lines that are in jeopardy, using a bar for each jeopardy priority that you have defined. For example, a range can indicate high, medium, or low jeopardy priorities. You can click a range bar to drill down to the Manage Fulfillment Lines page, which displays a list of fulfillment lines restricted to the exception type that corresponds to that range, as indicated by an icon in the Exception Type column. Orders on Past Due ?Details and allows filtering based upon : Year Inventory Organization Name Item Name Business Unit Name Bill-to Customer Name Ship-to Customer Name So Past due seems to give root cause details while Jeopardy gives ranges

QUESTION 2

In the Cloud Order Management system, identify the function performed by the External Interface Layer.

- A. It manages the communication between Order Management and external or internal fulfillment systems.
- B. It sends information to downstream fulfillment systems, and interprets responses and updates from those systems.
- C. It receives information from upstream order capture systems, sends information to downstream fulfillment systems, and interprets responses and updates from those systems.
- D. It imports orders and processes them to fulfillment lines before assigning them to fulfillment systems.

Correct Answer: B

QUESTION 3

Which three statements are true about the Extensible Flexfields setup for order capture integration? (Choose three.)

- A. The Extensible Flexfield implementation requires customers to manually map incoming Extensible Flexfield data to all Order Management entities.

- B. If the extensible attributes need to be passed to or received from downstream applications, the values must be passed in the payload structure.
- C. If the attribute information will be provided during the import process, the values should be provided in the import web service payload structure.
- D. The XLST "Copy-of" feature dynamically maps the input Extensible Flexfield to the Order Management entities and the Extensible Flexfield Order Management entity to the SDO/custom node for all Task Layers.
- E. The XLST "Copy-of" feature dynamically maps the input Extensible Flexfield to the Order Management entities and the Extensible Flexfield Order Management entity to the SDO/custom node only for the Decomposition (Sales Order Integration), Template Task Layer, and Fulfillment Task Layer.

Correct Answer: BCE

QUESTION 4

You want to decrease the implementation time for Order Management by using the Quick Start feature. Select the accurate list of four areas that you can configure by using the Quick Start feature.

- A. Objects in receiving, objects in advanced fulfillment, default pick release attributes for the shipping parameters of inventory facilities, and orchestration process for shipping and returning an order
- B. Default general shipping parameters, objects in order management parameters, default pick release attributes for the shipping parameters of inventory facilities, and orchestration process for shipping and returning an order
- C. Default general shipping parameters, objects in order management parameters, objects in advanced fulfillment, and orchestration process for shipping and returning an order
- D. Objects in advanced fulfillment, default pick release attributes for the shipping parameters of inventory facilities, objects in receiving, objects in order management parameters
- E. Default general shipping parameters, objects in receiving, default pick release attributes for the shipping parameters of inventory facilities, and orchestration process for shipping and returning an order

Correct Answer: D

QUESTION 5

Your customer is in the business of selling laptops.

Which three seeded pricing attributes are available when you set up Customer Pricing Profiles for your customer? (Choose three.)

- A. Customer rating
- B. Cost-to-serve
- C. Customer value
- D. Days Sales Outstanding
- E. Customer credit limit

Correct Answer: ABC
