### QUESTION 1

You are using the Check Availability feature to explore alternative ways of promising a batch of five fulfillment lines in simulation mode.

Which three attributes can you change to explore other promising options? (Choose three.)

- A. Requested Quantity
- B. Requested Ship-from warehouse
- C. Requested shipping method
- D. Allow substitute items
- E. Requested ship date
- F. Scheduled ship date

Correct Answer: BCD

The values for the attributes that begin with requested, such as the Requested Item attribute and the Requested Ship-from Warehouse attribute, are initially determined by what the values are when you select the line in the Order Orchestration work area. You cannot change the values for many of the requested attributes, such as the Requested Item attribute, the Requested Quantity attribute, and the Requested Ship Date attribute. You can change or clear the values for the Requested Ship-from Warehouse attribute and the Requested Shipping Method attribute. There are also some additional attributes you can change, such as whether substitutions are allowed, to influence the results when you explore other promising option.

---

### QUESTION 2

Which three attributes in the orchestration process definition utilize Oracle business rules to make runtime decisions for process behavior? (Choose three.)

- A. Cost of Change
- B. Exit Criteria
- C. Line Selection Criteria
- D. Start After conditions
- E. Evaluation Sequence

Correct Answer: BCD

### QUESTION 3

Your customer requires order revisions from an external system. The customer is concerned that all order lines will have to be sent again in the revised order even though the customer typically changes only one or two lines. Which three statements are true? (Choose three.)

- A. Order lines can be canceled by sending a cancellation request.
- B. A revised order can contain just the updated order line.
- C. All order lines will have to be sent again in the revised order.
- D. Missing order lines are assumed to be canceled.
- E. Missing order lines are not assumed to be canceled.

Correct Answer: ABD

---

#### QUESTION 4

You are implementing Oracle Cloud Pricing for a Fortune 500 hi-tech components distributor who operates on wafer thin margins.

Identify a pricing rule associated with a pricing strategy that can be used for evaluating the margin.

- A. Currency conversion lists
- B. Cost Lists
- C. Discount Lists
- D. Price Lists
- E. Shipping charge lists

Correct Answer: B

---

#### QUESTION 5

Select the two principle elements of the pack functionality in shipping execution. (Choose two)

- A. Trip
- B. Delivery
- C. Trip stop
- D. Delivery line
- E. License plate number

Correct Answer: DE
