### QUESTION 1

After loading Workforce data from external systems, which statement describes actions you can take to make adjustments to loaded data and then calculate compensation expenses? Choose the best answer.

- A. In Workforce, change properties such as salary grade and FTE, and then calculate salary, benefits, additional earnings, and taxes based on assumptions in Planning.
- B. Change loaded salary information in Workforce and then run the data map for Compensation Data to calculate the updated benefits.
- C. Change loaded benefit information in Workforce such as options for medical benefits and then launch the compensation data business rule to calculate the updated benefit data.
- D. In Workforce, if you change both the selected benefit option and the rate, when compensation expenses are calculated, the value will be based on the benefit option's default value.

Correct Answer: D

---

### QUESTION 2

What is the difference between Financials and Strategic Modeling? (Choose the best answer.)

- A. There is not a technical difference, both do essentially the same thing
- B. Ownership Contributions and Consolidations are out of the box in Financials
- C. Strategic Modeling is broader in focus and used for long range planning
- D. Financials is more summarized than Strategic Modeling

Correct Answer: C

Your strategic planning and your business planning should be complementary, but effective strategy development requires you to shift your focus from the day-to-day concerns of your business and to consider your broader and longer-term

options.

### QUESTION 3

What would be the recommended module-based cube architecture for a company wanting to enable Financials and Capital, as well as create a Detailed Sales Forecasting cube with complex allocations and calculations, corresponding sales reporting cube, and consolidated reporting cube? (Choose the best answer.)

- A. 3 BSO cubes (1 required for the modules +2 custom BSO cubes), 2 ASO cubes
- B. 2 BSO cubes (1 required for the modules +1 custom BSO cubes), 2 ASO cubes

C. 3 custom BSO cubes, 2 ASO cubes

D. 3 BSO cubes (2 required for the modules +1 custom BSO cube), 2 ASO cubes

Correct Answer: D

---

#### QUESTION 4

What two form validation rules options are supported in Planning? (Choose two.)

A. When enabled, execute validations associated with the form for all users regardless of access rights when validating the Approval unit.

B. When enabled, all validations are run as the administrator and applied to the form members.

C. When enabled, the user variable for the approval dimension on the form will be replaced by the approval unit member before the validations are run.

D. When enabled, the system figures out which page combinations have potential data blocks and runs the validations regardless of those page combinations.

E. When enabled, the form will be validated multiple times by replacing the user variable from the approval unit dimension with every possible value.

Correct Answer: CE

#### QUESTION 5

Which three security design principles can help reduce overall security maintenance and troubleshooting, while still balancing security control? (Choose three.)

A. Creating groups over assigning individual access permissions to users

B. Configuring single sign-on (SSO)

C. Assigning a higher level role than necessary, then scaling back access permissions

D. Using inherited permissions

E. Assigning global read access to each cube, then fine-tuning none and write access within dimensional security

Correct Answer: ACD
