

# 1Z0-1096-22<sup>Q&As</sup>

Oracle Machine Learning using Autonomous Database 2022 Specialist

**Pass Oracle 1Z0-1096-22 Exam with 100% Guarantee**

Free Download Real Questions & Answers **PDF** and **VCE** file from:

<https://www.geekcert.com/1z0-1096-22.html>

100% Passing Guarantee  
100% Money Back Assurance

Following Questions and Answers are all new published by Oracle  
Official Exam Center

- ⚙️ **Instant Download** After Purchase
- ⚙️ **100% Money Back** Guarantee
- ⚙️ **365 Days** Free Update
- ⚙️ **800,000+** Satisfied Customers

### QUESTION 1

Which two are required by an administrator while adding a new user to Oracle Machine Learning (OML) Notebooks?

- A. Autonomous Database (ADB) name
- B. User\\'s name and email ID
- C. Wallet information to connect to ADB
- D. Privileges to be provided
- E. OML username and password

Correct Answer: BE

---

### QUESTION 2

When managing Machine Learning models using the OML AutoML UI, what are the three actions that can be performed on Oracle Machine Learning (OML) models from within OML AutoML UI?

- A. Review the model statistics associated with the experiment of an ONNX-format image classification model.
- B. Create a notebook with auto-generated OML4Py code from an OML in-database model to allow for further model tweaking and batch scoring.
- C. Review the model statistics associated with the experiment of an OML in-database model.
- D. Deploy an OML in-database model to a REST endpoint.
- E. Review the model statistics associated with the experiment of an ONNX-format (Open Neural Networks Exchange) model.

Correct Answer: BCE

---

### QUESTION 3

In an Oracle Machine Learning notebook, which is the correct syntax for starting a SQL script in Scratchpad?

- A. #sql
- B. Ssql
- C. %sql
- D. @sql

---

Correct Answer: C

---

#### QUESTION 4

A supermarket needs to segment its customers based on their purchasing pattern. Which machine learning technique should you use to achieve this?

- A. Clustering
- B. Regression
- C. Association Rules
- D. Anomaly Detection

Correct Answer: D

---

#### QUESTION 5

Which four actions would typically be performed during the data preparation step for analyzing data with Oracle Machine Learning?

- A. performing feature engineering, such as creating derived variables
- B. numeric data normalization
- C. data collection from various sources
- D. missing value replacement
- E. building a machine learning model
- F. binning of numeric data

Correct Answer: ABCD
