

# 1Z0-1096-22<sup>Q&As</sup>

Oracle Machine Learning using Autonomous Database 2022 Specialist

## Pass Oracle 1Z0-1096-22 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

https://www.geekcert.com/1z0-1096-22.html

100% Passing Guarantee 100% Money Back Assurance

Following Questions and Answers are all new published by Oracle Official Exam Center

Instant Download After Purchase

100% Money Back Guarantee

- 😳 365 Days Free Update
- 800,000+ Satisfied Customers

#### **QUESTION 1**

Which feature of Oracle Machine Learning Notebooks should you use for data analysis, data discovery, data visualization, and collaboration on Oracle Autonomous Database?

A.	Workspace
----	-----------

- B. Notebook
- C. Job
- D. Project

Correct Answer: B

#### **QUESTION 2**

Which three are unsupervised machine learning algorithms?

- A. K-means clustering
- B. Principal Component Analysis
- C. Association rule
- D. Naive Bayes
- E. Logistical Regression
- F. Random Forest

Correct Answer: ABC

Explanation: Unsupervised machine learning uses a more independent approach, in which a computer learns to identify complex processes and patterns without a human providing close, constant guidance. Unsupervised machine learning involves training based on data that does not have labels or a specific, defined output. To continue the childhood teaching analogy, unsupervised machine learning is akin to a child learning to identify fruit by observing colors and patterns, rather than memorizing the names with a teacher\\'s help. The child would look for similarities between images and separate them into groups, assigning each group its own new label. Examples of unsupervised machine learning algorithms include k-means clustering, principal and independent component analysis, and association rules.

#### **QUESTION 3**

You are creating a job that should run a notebook every hour. You want to make sure that the job does not run repeatedly if there are more than five consecutive failures to run the job.

Which option should you set while creating the job?

- A. Minimum Failure Allowed
- B. Maximum Number of Runs

- C. Maximum Failure Allowed
- D. Timeout in Minutes

Correct Answer: A

#### **QUESTION 4**

Which notebook technology is used for Oracle Machine Learning in Oracle Autonomous Database?

- A. Polynote
- B. Zeppelin Notebook
- C. Google Colab
- D. Jupyter Notebook
- Correct Answer: B

### **QUESTION 5**

Which three types of forms are available in Oracle Machine Learning Notebooks?

- A. Text Input form
- B. Select form
- C. List form
- D. Check Box form
- E. Radio form

Correct Answer: ABD
