### QUESTION 1

Which three statements are true when you want to view queries? (Choose three.)

- A. You can view all public queries, and private queries that are in your list of queries.
- B. If you want to run queries that are not saved in PeopleSoft Query, you can use the Run page in Query Manager.
- C. Query Viewer is a version of Query Manager. It has the same functions, but in a different view.
- D. You can run a predefined query from your browser and view it online using any of the following links on the Query Manager search page: HTML, Excel, or Schedule.
- E. If you want to run multiple queries and run each query multiple times with different run-time prompt values, the Run page is more useful than the HTML, Excel, or Schedule links on the Query Manager search page.

Correct Answer: BDE
