### QUESTION 1

Which action creates a shared version of a project for two policy modelers to work on together?

- A. Project tab | Deploy snapshot
- B. Project tab | Inclusions | Add
- C. Project tab | Share a copy of this project
- D. Project tab | Add project to repository
- E. Project tab | Upload changes
- F. Project tab | Open project from Hub

Correct Answer: B

---

### QUESTION 2

The source material for your policy model says:

To be eligible for the program, there must be at least one child in the family under 18 years of age. The payment amount for the family is based on the total income of all family members. If a family member has multiple jobs, include income from all jobs.

Which two steps should you perform?

- A. Create two entities: the family member, the family member's job.
- B. Create an interred entity for "the job" to allow for family members with multiple jobs.
- C. Create three entities: the family member, the family member's age, the family member's job.
- D. Create three attributes (the first job, the second job, the third job) to allow for family members with multiple jobs.
- E. Create two entities: the family member, the family member's age.
- F. Use an entity function to calculate a family member's total income from all their jobs.

Correct Answer: DE

---

### QUESTION 3

You have an interview screen that collects the attribute "the person's age in years". Your customer requires that an error message be displayed if "the person's age in years" is less than 0 or greater than 120. Which option satisfies this requirement?

- A. Set the minimum and maximum values in the Screen Properties. Set the error message text in a validation rule.

- B. Set the minimum and maximum values, and the error message text, on the Interview tab.
- C. Set the minimum and maximum values in validation rules. Set the error message text on the Project tab.
- D. Set the minimum and maximum values on the Interview tab. Set the error message text in a validation rule.
- E. Set the minimum and maximum values, and the error message text, in the Edit Attribute dialog box.

Correct Answer: C

#### QUESTION 4

You configured an interview to resume from a saved checkpoint, and are getting a SessionResumeError.

What are the three reasons for this?

- A. The format for the resume session URL is invalid.
- B. Screens have been deleted, so the interview cannot be resumed.
- C. The policy data model has changed such that the data cannot be loaded.
- D. The GetCheckpoint web service is unavailable.
- E. The interview is completed so it cannot be resumed.

Correct Answer: ACD

#### QUESTION 5

**the employee's clock in time minutes = ExtractMinute(the employee's actual clock in time)**

**the employee's clock in time minutes remainder = Remainder(the employee's clock in time minutes, 15)**

<b>the adjusted employee's clock in time</b>	
<b>AddMinutes(the employee's actual clock in time, - the employee's clock in time minutes remainder)</b>	<b><u>the employee's clock in time minutes remainder</u> &lt; 9</b>
<b>AddMinutes(the employee's actual clock in time, (15 - the employee's clock in time minutes remainder))</b>	<b>otherwise</b>

You have created a policy model which adjust employee shift start and end times, to align with an existing payroll system.

If an employee clocked in at 09:22, what will the value of the adjusted employee's clock in time be?

- A. 09:15
- B. 09:30
- C. 09:25
- D. 09:20
- E. Uncertain
- F. 09:00
- G. 10:00

Correct Answer: B
