### QUESTION 1

Which human task pattern is best suited for a single approver scenario where the role is resolved through group membership? (Choose two.)

- A. User
- B. Group
- C. Initiator
- D. FYI
- E. Management

Correct Answer: A

Explanation: Single Approver: Use this option for a single user to act on a task. If the task is assigned to a role or group with multiple users, then one member must claim the task and act on it.

### QUESTION 2

Which two statements are true about using Process Player to test a process? (Choose two.)

- A. All activities must be implemented for a process before you can run it with Process Player.
- B. When you are running a process by using Process Player and it reaches a user task that has an associated form, you must display the form to select the task outcome.
- C. As a process runs in Process Player, the BPMN diagram is animated to show the flow through the model.
- D. Before running Process Player, you must map all roles in your process to at least one user or group in your organization.

Correct Answer: BD

---

### QUESTION 3

Value chain models allow you to specify more details about a process area that may have been identified in an enterprise map. Which two statements are true about how the details are specified in a value chain model? (Choose two.)

- A. A value chain model is the starting point for process decomposition in business architecture modeling.

- B. A step can be broken down into a separate value chain model to create a hierarchical group of value chain models.
- C. It documents goals, objectives, and strategies for a business area.
- D. A step can be linked to a BPMN process model.
- E. There is typically just one value chain model for an entire organization.

Correct Answer: B

#### QUESTION 4

What determines the life span of the value in a subprocess data object?

- A. process
- B. task
- C. subprocess
- D. project

Correct Answer: D

---

#### QUESTION 5

What feature would you use if you want to step through a business process just to validate the flow, rules, and forms?

- A. Process Player
- B. Process Simulation
- C. Process Workspace
- D. BPMN Debugger

Correct Answer: A
