QUESTION 1

Which three activities can you perform by utilizing the monitoring templates in Oracle Enterprise Manager?

A. Apply standardized monitoring settings across managed targets.

B. Create once, and then apply monitoring and policy settings as needed.

C. Apply a template only to targets of the same type.

D. Clone templates across VMs.

E. Export templates directly to tape.

Correct Answer: ABC

Monitoring templates simplify the task of standardizing monitoring settings across your enterprise by allowing you to specify the monitoring settings once and apply them to your monitored targets. This makes it easy for you to apply specific monitoring settings to specific classes of targets throughout your enterprise. For example, you can define one monitoring template for test databases and another monitoring template for production databases.

QUESTION 2

Identify a key capability of Oracle Enterprise Manager Application Quality Management (AQM)?

A. Testing of application and infrastructure changes

B. Static analysis of code

C. Code change management and version control

D. Application replication

Correct Answer: A

Oracle Enterprise Manager\\'s AQM solutions provide a unique combination of test capabilities which enable users to:

*

 Test infrastructure changes

*

 Test application changes

*

 Manage your test data and enable secure production-scale testing

*

Shrink storage costs

QUESTION 3

In Oracle Enterprise Manager Cloud Control, which four conditions can cause Agent Status to be displayed as unreachable in the console?

A. Agent is running but is unable to upload files.

B. Agent is not configured for HTTPS and Oracle Management Service (OMS) is locked to only accept HTTPS communications.

C. Agent is unable to connect to Oracle Integration Server.

D. Agent has not been registered with the name server.

E. Agent is not running.

F. Agent cannot resolve the Oracle Management Service (OMS) host name.

Correct Answer: ABEF

A,E: Make sure that the agent on "DEVBOX" is running and can upload to the OMS.

QUESTION 4

Which Oracle Enterprise Manager Pack includes deployment procedures?

A. Configuration Management

B. Configuration Pack for Middleware

C. Database Lifecycle Management Pack

D. Diagnostics Pack for Non-Oracle Middleware

Correct Answer: C

Database Lifecycle Management Pack comes with out-of-box Deployment Procedures to provision and patch the Oracle Database (both Single Instance Database and RAC) including the underlying infrastructure. Enterprise Manager supports segregation of duties, so that a Designer can create the provisioning and patching workflows while an Operator can simply deploy the databases using those workflows.

QUESTION 5

What are three console personalization features that are available to users in Oracle Enterprise manager Cloud Control?

A. Users can add items to the menu on a page.

B. Users can customize the layout of the regions on a page.

C. Users can add or remove a region from a page.

D. Users can select from a set of predefined home pages.

E. Users can specify the tables displayed within each region.

Correct Answer: BCE

User Region You can:

*

 (B) Customize the layout of regions on a page

*

 (C) Add a region to or remove a region from a page

*

 Specify the data displayed within each region

*

 Select the view that best meets your needs from a set of predefined home page layouts
