### QUESTION 1

How would you create an SLA based on the "JVM Runtime Up" metric for a specific WLS server?

- A. Deploy JVM Diagnostics and set a threshold on the JVMD agent up time.
- B. Create a Service target that uses the WLS Domain as its system, and the JVM Runtime as its performance metric. Configure SLA by using that metric.
- C. Define a threshold on the metric on the All Metrics page, and define a rule to create an Event for that incident. Define an SLA on the count of Incidents.
- D. You cannot create an SLA on JVM-related metrics.

Correct Answer: C

---

### QUESTION 2

You have developed and tested your Coherence application on a single physical machine by using the following operational configuration:

```
<coherence>
  <cluster-config>
    <unicast listener>
      <well-known-addresses>
        <socket-address id="1">
          <address></ address>
          <port>8088</port>
        </socket-address>
      </well-known-addresses>

      <address>127.0.0.1</address>
      <port>8088</port>
    </unicast-listener>

    <multicast-listener>
      <address>237.0.0.1</address>
      <port>22000</port>
      <time-to-live>0</time-to-live>
    </multicast-listener>
  </cluster-config>

  <logging-config>
    <severity-level>9</severity-level>
  </logging-config>
</coherence>
```

What two configuration changes must be made to run your application on multiple physical machines using multicast? (Choose two.)

- A. Lower the logging severity level to 3.
- B. Change the unicast listener address to a non-loopback address.
- C. Increase the multicast listener time-to-live value.
- D. Specify a list of well-known addresses.

Correct Answer: BD

### QUESTION 3

Which plug-in does Oracle Traffic Director require you to install to load balance HTTP requests to WebLogic Server?

- A. mod\_wls

- B. mod\_weblogic
- C. mod\_wl\_ohs
- D. No plug\_in is required
- E. mod\_ohs\_wl

Correct Answer: C

---

#### QUESTION 4

Which two statements are true about minor or young garbage collections? (Choose two.)

- A. Minor garbage collection is triggered when the eden space is full.
- B. Minor garbage collection does not cause a stop the world operation.
- C. Permanent generation is included in minor garbage collection.
- D. Minor garbage collections are usually shorter, with minimal impact on performance.
- E. Minor garbage collection does not occur when using a parallel collector.

Correct Answer: AB

---

#### QUESTION 5

Which is a valid reason for using Coherence Elastic Data?

- A. You want to cache more than the total amount of RAM on your systems.
- B. You want to extend your cluster across a WAN.
- C. Data must be persisted to disk to ensure fault tolerance.
- D. You want to store data on very large heaps.

Correct Answer: A
