- A. Installyyyymmdd.log and libraryloader.log
- B. OdDevyyyymmdd.log and libraryloader.log
- C. ASPNETSetup.log and libraryloader.log
- D. InstallFiles.log and libraryloader.log

Correct Answer: A

---

### QUESTION 2

You need to publish multiple outlines periodically, which are under constant development Identify the two statements that are true in such a situation.

- A. You can publish a different outline to the same location by using parameters.
- B. You can use command-line publishing in a batch to publish multiple outlines.
- C. You can customize the language of the command-line publishing output.
- D. You can use command-line publishing to publish only server content.
- E. You can use command-line publishing to publish content to a different Knowledge Center server.

Correct Answer: AB

---

### QUESTION 3

You are the project lead working with your IT team to set up a multi-user Installation of UPK in a Citrix environment, identify three correct considerations for this type of deployment.

- A. The server software and the database must reside on the same server and the client workstations are on the same network.
- B. The server may be accessed through the Internet with communication between the client and the server through Web Services using HTTP.
- C. The Developer server can support multiple libraries on the same physical server with users having multiple profiles, one for each library.
- D. The Developer can operate in remote and virtual environments such as Citrix and VMware without any special considerations.
- E. When recording a target application that is running a Citrix session, the Developer server must be running in the same Citrix session.

F. The Recorder will not properly recognize the PrintScreen key in Citrix, so the recording key must be changed to F8 in the Developer server.

Correct Answer: BEF

---

#### QUESTION 4

You have an outline of content, which consists of several modules. Each module contains several topics. You would like to add a summary module, which includes only select topics from each of the other modules.

Select the method to create this summary module.

- A. Copy the topics from the Library and paste them into the summary module.
- B. Copy all modules. Paste Special > Link to the Summary module and delete the unneeded topics.
- C. Copy all modules. Paste Special > Copy to the Summary module and delete the unneeded topics.
- D. Expand the outline, select the desired topics using Ctrl-click, Copy, and Paste in the Summary module.

Correct Answer: D

---

#### QUESTION 5

While you are working offline, the training administrator changes the permissions to the folder in which you have created a new topic. The permissions are changed to "List Only." What happens when you go online and your library is synchronized with the server?

- A. The content administrator is warned automatically and will restore your folder permissions so that your work is safe.
- B. The document will appear in the Lost document view.
- C. The permissions for the folder are automatically restored to modify permissions during the synchronization.
- D. I can revert the permissions myself after I receive a system warning.

Correct Answer: B
