QUESTION 1

You are provided a demo environment for a business application. The application is accessible from a web browser. Its database and application server are installed in a virtual machine.

Select the action that will enable you to record UPK content for this business application.

- A. Install UPK Developer in the virtual machine so that it has access to the application server.
- B. Install UPK Developer in the environment where the browser will be run: on the host machine. In the VM, or on another system.
- C. Install UPK Server in the virtual machine, and UPK Developer on the host machine.
- D. Install UPK Developer on the host machine, and record the virtual machine's window.

Correct Answer: A

QUESTION 2

When using the developer interface in a multi-user installation, the status bar shows the status "Disconnected." Identify the cause of this problem.

- A. A single user has been installed instead of a client.
- B. The local machine does not have access to the internet.
- C. The local machine is not connected to the network on which the server is available.
- D. The wrong profile is being used.

Correct Answer: C

QUESTION 3

The administrator deletes a folder and all of its contents. While working offline, an author new topic in the folder that the administrator just deleted.

What happens when the author checks in the topic?

- A. The topic is deleted because there is no place to store it.
- B. The folder is re-created with the new topic in it.
- C. The author is prompted to create a new folder to store the topic.
- D. The author is prevented from checking in the topic.

Correct Answer: C

QUESTION 4

Identify two true statements about the installation of the Knowledge Center User Import Utility.

- A. The Knowledge Center User Import Utility can be installed only before the Knowledge Center is installed.
- B. The Knowledge Center User Import Utility can be installed on the same server as the Knowledge Center.
- C. The Knowledge Center User Import Utility can be installed on any workstation that can connect to the Knowledge Center.
- D. The Knowledge Center User Import Utility can be installed only in the Knowledge Center application root directory.

Correct Answer: BC

QUESTION 5

A content administrator has asked you to troubleshoot a multi-user UPK Installation: the authors unable to connect to the server. The administrator sent you the following message from a Windows event log:

The current identity (NT AUTHORITY\NETWORK SERVICE) does not have write access to "C:\WINDOWS\Microsoft.NET\Framework\v2.0.50727\Temporary ASP.NET Files\\".

Where can you fix this permission problem?

- A. On the Oracle database server
- B. On the affected client workstations
- C. In the UPK library
- D. On the application server

Correct Answer: D
