QUESTION 1

You are creating an Oracle Cluster database using DBCA. The "Memory size (SGA and PGA)" field is supplied on value of 2000 MB. The default Block used for the database is _____.

A. 2 KB

B. 4 KB

C. 8 KB

D. 16 KB

E. 32 KB

Correct Answer: C

Note:

* In the Block Size list, enter the size in bytes or accept the default. Oracle Database data is stored in these blocks. One data block corresponds to a specific number of bytes of physical space on disk. While using pre-defined templates, this field is not enabled since the database will be created with the default block size of 8 KB. But while using the custom option, you can change block size. Selecting a block size other than the default 8 KB value requires advanced knowledge and should only be done when absolutely required.

QUESTION 2

Which three utilities can be used for managing the OCR?

A. OCRCHECK

B. OCRDUMP

C. CRSCTL

D. OCRCMD

E. SRVCTL

F. OCRCONFIG

Correct Answer: CEF

QUESTION 3

You want to install Grid Infrastructure for a cluster and the Oracle Database software (with the RAC option). Do you need SSH user equivalency?

A. Yes, to ensure security during the installation.

B. Yes, to set up administrative privileges for the DBA.

C. Yes, to allow the use of SSH and SCP without being prompted for a pass phrase.

D. No, you don\\'t need SSH user equivalency.

Correct Answer: C

During the installation of Oracle RAC, OUI needs to copy files to and execute programs on the other nodes in the cluster. In order to allow OUI to do that, you must configure SSH to allow user equivalence. Establishing user equivalence with SSH provides a secure means of copying files and executing programs on other nodes in the cluster without requiring password prompts.

QUESTION 4

Which action is not available when right-clicking a ADVM volume in the ASM Configuration Assistant?

A. Enable

B. Disable

C. Version

D. Resize

E. Delete

Correct Answer: C

Right click a selected volume in the Oracle ASM Configuration Assistant screen to display the configuration options menu. The menu options include: Enable a disabled volume Disable an enabled volume Resize a volume that has not been mounted on an Oracle ACFS file system Delete a volume
