QUESTION 1

What is guaranteed by the class file verifier?

A. It checks that a given program is a valid Java application.

B. It checks for external resource access.

C. It checks for attempted native library access.

D. It checks for attempted network access.

Correct Answer: A

QUESTION 2

Manager.createPlayer(..) may involve synchronous blocking I/O operations, possibly blocking execution for an indefinite amount of time. Which is the most efficient way to create a Player object and receive the events it generates?

A. Create the Player from an InputStream, possibly after copying data into memory.

B. Create the Player in a separate thread from the user interface, then create a PlayerListener that receives events from this Player.

C. Ensure System.gc() is called before creating the Player.

D. Create the Player in the current thread and listen for events in a separate thread.

Correct Answer: B

QUESTION 3

In the JTWI 1.0 specification, what is the recommended screen size as returned by Canvas.getHeight() and Canvas.getWidth(), when in full screen mode?

A. 320x240 pixels

B. 125x125 pixels

C. 176x208 pixels

D. 96x54 pixels

Correct Answer: B

QUESTION 4

Given the MIDlet code:

11.

 try {

12.

 while (true) {

13.

 ServerSocketConnection server = (ServerSocketConnection)

14.

 Connector.open("socket://:444", Connector.READ, true);

15.

 SocketConnection conn= (SocketConnection)

16.

 server.acceptAndOpen();

17.

 InputStream is = conn.openInputStream();

18.

 StringBuffer buffer = new StringBuffer();

19.

 for (int ch = -1; (ch = is.read()) != -1;){

20.

 buffer.append((char)ch);

21.

 }

22.

 System.out.println(buffer);

23.

 }

24.

} catch (IOException x) {} Which two are true? (Choose two.)

A. The device may run out of connections.

B. The call to server.acceptAndOpen() on line 16 returns immediately if there is no activity on the connection.

C. An IOException could occur, causing the while loop to terminate.

D. The ServerSocketConnection is guaranteed to timeout at line 16 if there is no activity on the connection after a period of time.

Correct Answer: AC

QUESTION 5

Given the JAD file fragment:

MIDlet-1: Calendar, calendar.png, com.example.CalendarMIDlet

MIDlet-2: Chat, chat.png, com.example.ChatMIDlet

What CalendarMIDlet code launches ChatMIDlet at the time specified by variable chatTime?

A. PushRegistry.registerAlarm("Chat", chatTime);

B. PushRegistry.registerAlarm ("com.example.ChatMIDlet", chatTime);

C. PushRegistry.registerAlarm("MIDlet-1", chatTime);

D. PushRegistry.registerAlarm (Class.forName("com.example.ChatMIDlet"), chatTime);

Correct Answer: B
