#### QUESTION 1

Which of the following best describe the general steps involved in normalization?

- A. Change the character set of the tables to normalize.
- B. Remove repeating groups within rows.
- C. Remove duplicate data within columns.

Correct Answer: A

---

#### QUESTION 2

Connection strings in FEDERATED tables are stored...

- A. In variables.
- B. Within the table definition.
- C. In a .fed file corresponding to the table.
- D. They are not stored, but must be re-specified at server restart.

Correct Answer: B

---

#### QUESTION 3

Which of the following best describes what you might expect after disabling InnoDB at run time?

- A. It will disable InnoDBs associated memory buffers and data structures, however it will not save any memory.
- B. It will still enable InnoDBs associated memory buffers and data structures, however it will save memory.
- C. It will disable InnoDBs associated memory buffers and data structures, which will save memory.

Correct Answer: C

---

#### QUESTION 4

How can the SHOW PROCESSLIST command be helpful when optimizing queries?

- A. It shows if a query is using an index or not.
- B. It shows how the server processes a query.
- C. If checked periodically, it can reveal queries that cause other queries to hang.
- D. It shows the percentage of processing power that each query is using on a server.

Correct Answer: C

---

#### QUESTION 5

Consider a stored procedure or function that is going to be executed. Which of the following statements are true?

- A. First, the database level privileges are checked, then the global privileges, then the stored routine level privileges.
- B. First, the global privileges are checked, then the stored routine level privileges, then the database level privileges.
- C. First, the global privileges are checked, then the database level privileges, then the stored routine level privileges.
- D. If the stored routine contains commands that access other databases and tables, access control for these objects will also be processed.

Correct Answer: B
