QUESTION 1

A user contacts the help desk to report that a script run by the user\\'s department is reporting an error. The script checks for who is logged in. Your first action is to make sure that the file that the who command reads for its output, is present.

Which file does the who command read to obtain its output?

A. /var/adm/users

B. /var/adm/utmpx

C. /var/adm/utmp

D. /var/adm/wtmpx

Correct Answer: B

QUESTION 2

Which two statements are true about the inetd process on a system running the Solaris 10 OS? (Choose two.)

A. It only runs on servers.

B. It is considered the master restarter.

C. It starts well-known services on demand that are NOT automatically started at boot time.

D. It consults /etc/inet/services to determine which service to start when a request is received on a port.

Correct Answer: CD

QUESTION 3

A corrupted file system is now repaired and back in use. Some, but not all of the files within the file systems have been deleted. The only backup of this file system is a month-old tar archive. This archive will need to be restored as root. Which two statements correctly describe the effects of the restore operation? (Choose two.)

A. Files found in the file system that are also on tape will NOT be overwritten.

B. The missing files, present on the backup tape, are restored to the file system with the data as it was when the backup was taken.

C. The access times are preserved by tar and will reflect the time when a user last accessed the data.

D. The modification time on the files restored by tar will be preserved and will reflect the time the file was last modified before the backup, NOT the time of the restore operation.

Correct Answer: BD

QUESTION 4

You are creating a new direct map to allow a new application that has been installed on an application server to become available. Which two commands activate the new map? (Choose two.)

A. /usr/sbin/mountall

B. /usr/sbin/automount

C. /usr/bin/pkill -HUP inetd

D. /usr/sadm/bin/smreg add -d /etc/auto_master

E. /usr/sbin/svcadm restart svc:/system/fileystem/autofs

Correct Answer: BE

QUESTION 5

Which RAID configurations are supported with Solaris Volume Manager? (Choose three.)

A. RAID-1

B. RAID-5

C. RAID-3

D. RAID-10

E. RAID-0+1

Correct Answer: ABD
