<https://docs.oracle.com/en/cloud/paas/autonomous-database/atpfg/index.html>

QUESTION 2

You are the admin of an Autonomous Database (ADB) instance, and a new developer has requested a new workspace in APEX.

What statement describes the step to provide the developer a new workspace in APEX?

- A. Create an IDCS user with the APEX role.
- B. Access the APEX Administration Services and create the workspace for the developer.
- C. Create a new developer account.
- D. Create a database user with the APEX role.

Correct Answer: B

<https://docs.oracle.com/en/database/oracle/application-express/19.1/htmig/creating-workspace-andadding-Oracle-AE-users.html#GUID-1040F145-452A-49D4-BCF6-A80851AFFA74> Create a New Instance Administrator Login to the INTERNAL workspace as the ADMIN user, or another existing admin user. Click the "Create User" link on the right-hand menu. For a new admin user enter mandatory items and the following. Workspace : INTERNAL Default Schema : APEX_180200 {or whatever the highest version is} User is an administrator: Yes Account Availability : Unlocked Password and Confirmation Password. Require Change of Password on First Use : Yes Click the "Create User" button.

QUESTION 3

Which statement is not correct when the Autonomous Database is stopped?

- A. In-flight transactions queries are stopped
- B. Tools are no longer able to connect to a stopped instance

- C. User with DWROLE can still access the database
- D. CPU billing is halted

Correct Answer: C

QUESTION 4

Which statement is true about the use of Access Control Lists (ACLs) with an Autonomous Database on Shared Infrastructure?

- A. When you restore a database, the existing ACLs are not overwritten by the restore.
- B. An ACL can only be set during the creation of an Autonomous Database on Shared Infrastructure.
- C. ACLs can only be used with private endpoints.
- D. An ACL can be set up for an IP address or a virtual cloud network (VCN) but not both at the same time.

Correct Answer: A

QUESTION 5

While creating an Autonomous Container Database on dedicated infrastructure through the Oracle Cloud Infrastructure(OCI) console, which patch type is offered to be applied during maintenance?

- A. Release Update (RU)
- B. Prior Release Update Revision (PRUR)
- C. Prior Release Update (PRU)
- D. Quarterly Bundle Patch (QBP)

Correct Answer: A

On the Edit Automatic Maintenance card, select Release Update (RU) or Release Update Revision (RUR) from the Maintenance type list.

Note:

Currently, the Release Update Revision (RUR) maintenance type is not a selectable option. When release update revisions become available for Autonomous Database, this option will become selectable.
