**QUESTION 1**

Which option is not available to pick ( no.of days ) when configuring the backup retention for Oracle Container Database.

A. 120

B. 60

C. 15

D. 7

Correct Answer: A

Backup Retention If you choose to enable automatic backups, you can choose one of the following preset retention periods: 7 days, 15 days, 30 days, 45 days, or 60 days. The system automatically deletes your incremental backups at the end of your chosen retention period.

**QUESTION 2**

Data Guard is enabled for your Autonomous Database and the Lifecycle State field for the primary database indicates that it is stopped.

Which statement is true?

A. The standby database is terminated.

B. The standby database is also stopped.

C. Switchover is automatically initiated.

D. Failover is automatically initiated.

Correct Answer: B

**QUESTION 3**

While creating a business model what advanced options you can enable or disable? (Choose three)

A. Business Object Security Feature

B. Analytic View Transparency View

C. Autonomous Aggregate Cache

D. Display private tables

E. Analytic View Base Table Query Transformation

Correct Answer: BCE

## Creating and Editing Business Models

`<` `>`

From the Business Models page, you can create a business model and view information about it. You can also edit a business model and perform other actions on it.

When you create a business model, you identify a fact table that contains the data to inspect. The Business Model creation tool looks at the contents of that table, identifies any hierarchies in the fact table, and searches for other tables that may contain related hierarchies. It then suggests a business model to which you can make any desired adjustments.

While creating a business model, you can enable or disable the following advanced options:

- Autonomous Aggregate Cache, which uses the dimensional metadata of the business model to manage a cache and can improve query response times.
- Analytic View Transparency Views, which presents analytic views as regular database views and enables you to use your analytic tools of choice while gaining the benefits of analytic views.
- Analytic View Base Table Query Transformation, which enables you to use your existing reports and applications without requiring changes to them.

**QUESTION 4**

Which three tools can be used to monitor the usage and activities of Autonomous Database on Dedicated Infrastructure?

A. RMAN

B. Logs

C. OCI Metrics

D. Performance Hub

E. Enterprise Manager Cloud Control

Correct Answer: CDE

**QUESTION 5**

Oracle Autonomous Database on Dedicated Infrastructure is composed of which Oracle Cloud resources?

A. Virtual Cloud Network, Compartments, Policies, and Autonomous Exadata infrastructure

B. Oracle Machine Learning ZeppelinNotebook, Autonomous Exadata infrastructure, Fleet Administrator, and Database Administrator

C. Autonomous Exadata infrastructure, Autonomous Backup, Autonomous Container Database, and Autonomous Database

D. Fleet Administrator, Database Administrator, Database User, and Autonomous Exadata infrastructure

Correct Answer: C
