QUESTION 4

The 3rd party application that your customer wants to migrate to Autonomous Database (ADB) has some specific demands like tablespace names, usemames and init.ora parameters. The decision was made to adhere to the suggested migration method using an instant client and the datapump version that was suggested (and came with it).

Which statement is true about the migration of the application\\'s database success?

A. The migration can be technically a success but the 3-rd party vendor needs to support the result.

B. The suggested datapump version will create an alias for non-standard tablespace names so the migration is successful.

C. The tablespace names will result in a blocking error during datapump import because of ADB limitations.

D. The migration can be a success, both technically and functional due to datapump enhancements.

Correct Answer: B

QUESTION 5
