QUESTION 1

Which two operations can be completed in calculation manager? (Choose two.)

- A. View and kill requests
- B. Delete a reporting application
- C. Restructure a planning application
- D. Create planning applications

Correct Answer: AC

A: The Sessions window lists active user sessions and requests for the server, application, or database. A user can have more than one session open at any given time. For example, one user may have open sessions on two databases. If you have Administrator or Application Manager permissions, you can end all requests, end all requests for a user, or end a specific request.

C: To restructure a database:
