QUESTION 1

Assume that you have made changes to the Default Parameter Set.

Which statement is true?

A. Regardless of your user role, you won\'t be able to save the changes within the Default Parameter Set without renaming it first.

B. In order to reset all the changed settings back to their original settings, select "Actions", then "Utilities", and then "Set Defaults" from the drop-down menu.

C. In order to reset all the changed settings back to their original settings, you should review them on the screen and be able to tell which ones have been changed, and what the default settings were.

D. In order to reset all the changed settings back to their original settings, you should delete the Parameter Set and recreate it using the Default as your template.

Correct Answer: A

QUESTION 2

If a Rate Record and a Rate Offering are configured with conflicting values in the same data elements, how does OTM address this?
