QUESTION 1

Altiris Client Management Suite 7.1 Solutions (such as Patch Management Solution, Inventory Solution, and Software Delivery Solution) have been integrated into the Software Management Framework. What is a benefit of this integration?

- A. It allows all applications installed on the framework to be accessed by all solutions.
- B. It allows different versions of an application installed on the framework to run side by side.
- C. It allows all solutions built on the framework to eliminate duplication of work and data.
- D. It allows all solutions built on the framework to use different sets of resources.

Correct Answer: C

QUESTION 2

Which tool can an administrator use to view the results of a Microsoft Vulnerability scan for a specific computer?

- A. Windows Application Log
- B. Resource Manager
- C. Report Builder
- D. Altiris Log Viewer

Correct Answer: B

QUESTION 3

What are two prerequisites for installing and configuring IT Analytics? (Select two.)

- A. Microsoft Reporting and Analysis Services
- B. Adobe Flash
- C. Microsoft SQL Server 2005 Data Mining Viewer Controls
- D. Microsoft Office Web Components 11 (2003)
- E. Microsoft Silverlight

Correct Answer: AD

QUESTION 4

A system administrator discovers that an unauthorized piece of software called "Solitaire 2099" has been installed on

company desktops. The software installs a browser toolbar that prevents the use of the company standard browser toolbar and needs to be removed immediately. The administrator has also been instructed to identify all users that are playing the game so that they can receive a private email about the situation. Which two capabilities of Inventory Solution will help the administrator? (Select two.)

- A. Inventory Solution provides data about the number of installed instances of an application.
- B. Inventory Solution automatically associates software titles to users.
- B. Inventory Solution automatically determines unauthorized software titles.
- C. Inventory Solution tracks how often an application is executed.
- D. Inventory Solution identifies harmful applications stored on local hard drives.

Correct Answer: AD

QUESTION 5
